MESSAGE

It is a matter of great honour and pleasure for me to write this message to be included in the souvenir being published on the occasion of the International Congress on "**Post-Harvest Technologies of Agricultural Produce for Sustainable Food and Nutritional Security**" is being jointly organized by Uttar Pradesh Council of Agricultural Research (UPCAR), Lucknow and Integral Institute of Agricultural Science and Technology (IIAST), Integral University, Lucknow.

For Indian economy, it is utmost essential that all the necessary measures are taken to ensure that the rural development is kept in focus always. For this, the emphasis on agriculture and more importantly on the methodologies and approaches that help us achieve sustainable agriculture is a must. The program of this congress is quite comprehensive and I am sure, it will help prepare a path forward for us all in the state of U.P. The idea of bringing the outcome of Science and Technology directly to the farmers is novel and unique.

Wishing the management of Integral University a success in their endeavours, I compliment them for their efforts to achieve greater standards of quality of education through meaningful science & research.
